Committed to high-quality cancer care

Each day we're committed to beating cancer and saving lives. Our highly skilled and experienced specialists treat a wide range of cancers. We work together to deliver the best outcomes for our members – at every step of their journey.

Early detection saves lives

When it comes to cancer, early detection can save lives. Our physicians aim to detect cancer as early as possible. That includes in-person, phone, and email reminders about which screenings you may need.

Advanced treatments

Our dedicated oncology teams have access to the latest treatments and therapies. So whether your cancer is rare, common, or complex, you'll get the most advanced, integrated care plan.

Recovery support

Your care team will continue monitoring your health during recovery and beyond. Plus, they'll help you get the physical and mental health support you need to stay healthy.

Visit **kp.org/cancercare** for more information on Kaiser Permanente's approach to cancer care as well as resources for mental health and wellness, support groups and classes, nutrition and healthy living programs, and screening and prevention guidelines.

The Kaiser Permanente advantage

Moanalua Medical Center has been recognized for excellence in cancer care.¹

Kaiser Permanente is at the forefront of clinical cancer research

Kaiser Permanente Hawaii has had a robust clinical trials program since 2009. We offer enrollment to cooperative group and leading industry sponsored studies. Giving our members treatment options, including the latest medications available, is an important component of our cancer care program. Members have access to treatment studies in Hawaii and with our Kaiser Permanente colleagues on the mainland. We strive to provide optimal care coordination to make it easier on our patients.

Kaiser Permanente is accredited/certified with the following organizations

QOPI Certification Program

Quality Cancer Care: Recognizing Excellence

Kaiser Permanente's oncology department has achieved certification in the Quality Oncology Practice Initiative (QOPI®) program, a quality care assessment established by the American Society of Clinical Oncology (ASCO). The QOPI Certification Program (QCP™) provides certification for outpatient hematology-oncology practices that meet nationally recognized standards for quality cancer care.

Accredited programs provide quality care throughout the full spectrum of cancer care including prevention, early diagnosis, cancer staging, optimal treatment, rehabilitation, life-long follow-up for recurrent disease, and end-of-life care.

¹ Women's Choice Award® (www.womenschoiceaward.com). ² The Women's Choice Award gives women a collective voice so that they can help each other identify trusted brands, products, and services. Best Hospitals awards are 100% objective, fact-based awards based on what matters most to women when choosing a hospital. WomenCertified Inc. does not in any way endorse any business, hospital, brand, product and/or service, but instead, reports the collective opinion and judgment of female consumers for brands and publicly available clinical data for hospitals. Visit www.womenschoiceaward.com to learn more.
